

## Evidence God are Extraterrestrials

NASA commissioned a research team to study Unidentified Aerial Phenomena (UAP), observations of events that cannot scientifically be identified as known natural phenomena. On June 20th, 2017, Gaia TV released The Nazca Alien Mummies. They had stated that they found two different species of alien beings in the Nazca Peru desert in 2016. Five, 60-centimeter tridactyl bodies with reptilian characteristics and two 1-meter long tridactyl bodies with reptilian characteristics. Out of the five smaller beings, only three were intact. The others were missing parts like the head. The five-foot tall being had a child with it. They all had three fingers on their hands and feet. They were found in a sealed off cave in the Nazca Desert of Peru. I knew they were real because of the x-rays. I knew, you can't fake nature. Not even the greatest artist in the world could replicate what the x-rays revealed. They were real. Carbon dating stated them to be at least a thousand years old and the smaller ones 1500 years old. They all had metal implants implying that there were indeed a technologically advance group of beings.

Less than a week later, I was watching a program on Netflix called The Empowered Human and there they were. The tiny super intelligent alien beings found in the Nazca Peru desert sitting with King Akhenaten and Queen Nefertiti. They are the same species of extraterrestrials. What I had realized is that these being were not their children like history had told us to believe. They were Aten. Not the sun disk that they said Aten was, but the actual beings themselves are Aten. The sun disk is their means of transportation. They were also called "The One True God." Very interesting considering they are the only beings ever depicted in their likeness throughout all Human history. Not only this, but if you look closely at the images, you will notice that these beings were patting the chin or seemingly admiring King Akhenaten and Queen Nefertiti. It would appear to me that they were admiring their creation.

This realization forced me to go through all Human history starting at the alleged beginning, Summaria. And there I found these little beings being overtaken by another group of extraterrestrials. They were bounded and made to kneel to the other Gods. Could this be the war between God and The Devil? Are God these little, tiny super intelligent alien beings? Did they create us as a labor force? Are they The Anunnaki? Listen to the name Akhenaten and Anunnaki. For a few thousand-year difference, they sound nearly identical. It is the first time we see monotheism.

It's fantastic to see these little being return to power in Egypt thousands of years later. In the beginning of the Egyptian times, there were many Gods worshiped. Then, King Akhenaten and his wife Queen Nefertiti come into power and declare that there is one true God, and his name is Aten. All the other Gods were gone. After King Akhenaten rule, the other Gods came back. This is very interesting considering the documented history of seeing the Gods fighting each other all this time. Especially in the 15 to 16 centuries with seeing large cigar shaped craft fighting ball or sphere-shaped craft. This tells me that we have been in the middle of an extraterrestrial war that is thousands if not millions of years old being fought over Humanity and The Earth.

These beings were not only found in Summaria and Egyptian times, but all over the world throughout history. The Dogen tribe in Africa I had found have these little beings at top of their headdresses. They say that God comes from Sirius B long before we were able to know that Sirius was a binary star system. The Elite worship Sirius, Orion and Draco as well. The NASA logo has the star systems Orion, Draco and The Pleiadeans which tells me that they have been working or are in league with these beings. The new Space Force logo no longer has Orion in it but a singular star they say is the north star, but I have a feeling its Sirius and I will soon explain why.

These little being were found all throughout Native America and South America. It's possible that these beings were known as leprechauns. I also have a strong belief that these little beings are also what you would know as cherubs. Like the ones showing Ben Franklin electricity and helping Saint John write Revelation.

In 2018, I decided to inform NASA about the discovery. They had no response for me, so I started attacking their Twitter account with the evidence. Resulting in the article published December 4<sup>th</sup> 2018, "Tiny Super Intelligent Alien Beings May Have Visited Earth And Humans Simply Didn't Notice Them." Even the title was a lie considering the evidence. They never addressed WHICH tiny super intelligent alien beings they were referring to but I knew.

What I can simply say about the whole thing is, we have been badly lied to about the entire history of Humanity. We have been lied to about God and The Devil who and what they are exactly. Why? Evil people with misguided mind sets. A group who wants to come, see and conquer even at the coast of losing all their slaves. Researching the extraterrestrial phenomena lead me straight to the super elite's door and what you would know as politics and religion. They cannot be separate because they are one in the same. If these little beings are God, then who is The Devil? Which lead me to ORION.

#### OBSERVATIONS AND DATA PROCESSING

It was a simple matter of examining the evidence and paying attention. Although It has been five years since the Nazca alien mummies were released, no one else has noticed as far as I am aware.

## RESULTS

Fig. 1: The body size of the first species compared to a human being.

Fig. 2: A close-up face shot of the first species.

Fig. 3: X-ray anterior and side of two of the specimen.

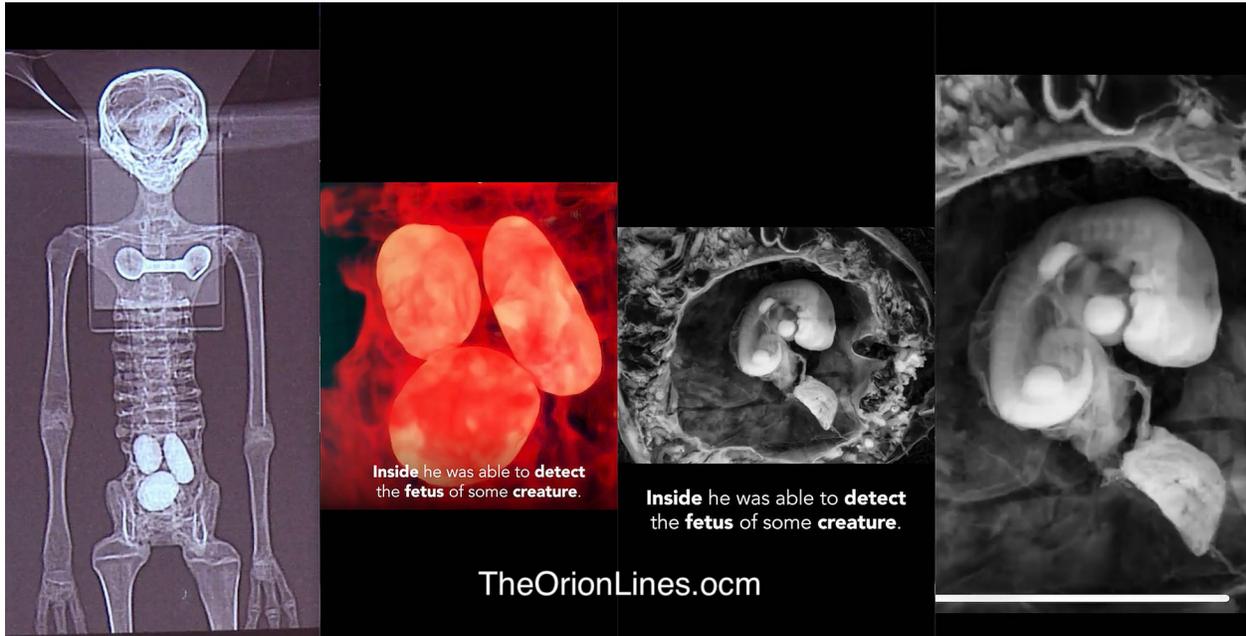

Fig. 4: X-ray anterior of third specimen with eggs with 4x zoom of fetus.

Fig. 5: The two pictures on the left are of King Akhenaten and Queen Nefertiti with Aten. The top right are the Nazca Alien Mummies and the bottom right is the same species recently found dead in the snow, Russia. Side by side for comparison.

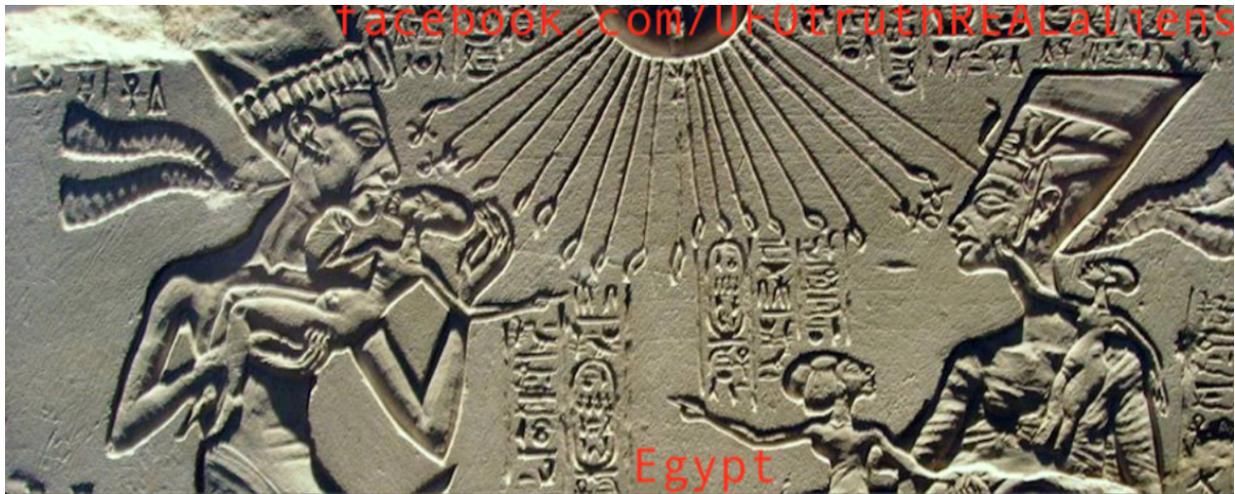

Fig. 6: The top picture King Akhenaten and Queen Nefertiti with Aten. The bottom tablet was found in Mexico showing the same picture. No one would have included two species of extraterrestrials into the picture unless it was seen making real and placing King Akhenaten and Queen Nefertiti to be the first know humans to cross the Ocean.

Fig. 7: A collection of Sumarian images having these little beings being overthrown.

Fig. 8: The image on the left is from the Babylonian era called "Child Sacrifice" under Moloch Wikipedia but those aren't children. The little beings are being forced to kneel just as the little beings in Sumarian.

"Tiny, super-intelligent" aliens may have already visited Earth — but humans simply didn't notice them, a NASA scientist claims in a new research paper.

Silvano P. Colombano, of NASA's Intelligent Systems Division, argued in a recent research paper that extraterrestrials may look different than what we expect and may be able to travel huge distances — and so we may have never realized that they'd paid us a visit.

"I simply want to point out the fact that the intelligence we might find and that might choose to find us (if it hasn't already) might not be at all be produced by carbon based organisms like us," Colombano wrote in "[New Assumptions to Guide SETI Research.](#)"

### Conclusions

Basic common sense can tell that they are the same species. The truth is, we've been lied to this whole time about everything. Maybe if you make a big thing about it, the government will be forced to tell the people the truth. It's been 5 years, is there any intelligent life on this planet Earth?
